

ASTHMA COUGHS
Whooping Cough, Spasmodic Croup, Bronchitis, Catarrh, Colds.

Vapo-Cresolene
EST. 1873

A simple, safe and effective treatment avoiding drugs. Used with success for 25 years. The air carrying the antiseptic vapor, inhaled with every breath, makes breathing easy, soothes the throat, and stops the cough, assuring restful nights. Cresolene is invaluable to mothers with young children and a boon to sufferers from Asthma.

Send us postal for descriptive booklet and 100 Vapo-Cresolene CO. 62 Cortlandt St., N. Y.

SAN FRANCISCO
Bellevue Hotel
Geary and Taylor Sts.
Strictly First-Class

Built of concrete and steel. Private bath to every room; 12 minutes from Exposition; headquarters for island residents. Rates, \$2 per day and up; American plan, \$4 per day and up.

The Come Back Habit

Cats have formed it and other animals, so why not the two-legged kind. When we sell a suit of clothes in this store we count on the come back. One swallow does not make a summer, but a flock of swallows help. We sell a True Blue Serge Suit at \$15, which sure does have the come again quality in it. A window full of them right now, and you can ask anyone who wears one. Charge accounts invited with people who have credit established.

The MODEL CLOTHIERS

1138-1141 Fort St.
Where Willie, the Office Boy, waits the second call.

**NEED VAST SUMS
TO PUT HARBOR
IN GOOD SHAPE**

(Continued from Page 1)

lumber yard, and would afford additional space for deep-sea vessels and the construction of modern wharfs, and, in addition, it is desired for the right-of-way for the proposed belt railroad. Honolulu is in a cramped and crowded condition as regards shipping and shipping facilities.

Trade Bound to Grow.
Increased shipping in coming years and the need of additional wharfs are the facts upon which the superintendent will base his argument for the purchase of the marine railway site, the proposed wharf on this site to be used for handling freight from large deep sea vessels.

Mr. Forbes will propose the establishment of a harbor railway about 2.3 miles in length to greatly facilitate the handling of freight. Used by the army of such a road is one of the arguments which will be presented to Congress.

"Supplies for Schofield Barracks and Fort Kamehameha," the superintendent states, "where by far the greater number of troops are quartered, are hauled to the railroad station, a distance of approximately three-quarters of a mile. Supplies for Fort Armstrong, De Kuyper, Rigger and Shafter are hauled by trucks a distance of from one to four miles. All of the departments of the federal government would have free use of this belt-line railroad should it be constructed as outlined in these recommendations."

Wants Railroad Property.

Government operation and ownership of the wharves owned at present by the Oahu Railway and Land Company is, according to the superintendent, desirable and important. He states that their acquisition would enlarge the government holdings by about 30 per cent. It is estimated that about \$800,000 will be required to purchase the property.

Naval breakwater is to be strongly urged by the superintendent, as is also the improvement of the harbor at Kahului by dredging and by building a breakwater to keep the harbor clear. For the entire work at Kahului the superintendent asks two appropriations totaling \$250,000.

Road work is to require approximately \$1,404,800, a belt road around the entire island being proposed. This will form, in addition to the present road which would be greatly improved, a road around the Makapuu end of the island, a distance of 21.5 miles.

From the Pal to Haleiwa the superintendent recommends the construction of 30 miles of concrete road out of the entire distance of 47 miles. From Haleiwa to Waianae 10 miles of new road are recommended, and in the 25-mile stretch between Waianae and Honolulu the superintendent recommends 15 miles of new work, including proper bridges and drains.

National Guard work is to be boosted if possible by slight pay for privates, and slightly more pay for officers. It is also recommended that national guard men be allowed the privileges of the commissary.

The adjutant general is proposed should be appointed by the president, thus securing him a degree of permanency in his position.

Federal ownership of Kilauaea by creating the volcano area into a national park is also urged.

MORNING ON 'CHANGE

Extreme apathy has suddenly descended again on the local stock exchange, only one deal being made during the entire call this morning, and that not of a sugar issue, but of 10 shares of Hawaiian Pineapple. Oha, Waialua, Oahu Sugar, Onomea and Ewa are the only sugar issues dealt in between boards, and trading in those is at prices unchanged from Monday's close.

**PLAN TO WIDEN NUUANU AVENUE
GETS CITY PLANNING BODY O. K.**

**Surfacing of Kalakaua Avenue
at Earliest Possible Moment
Urged on Engineer**

City and County Engineer Whitehouse has been given backing on his street widening projects by the city planning commission, that body in a meeting this morning approving steps whereby Nuuanu avenue from its junction with Beretania street will be sliced off in portions necessary to provide a street of regular width.

Walter F. Dillingham made the motion which gives official backing to the widening plan, following an explanation from Engineer Whitehouse of the widening process, and a report submitted to the commission with blueprints and figures. The motion carried unanimously.

"The junction of Beretania street and Nuuanu is actually dangerous in its present condition," said the engineer. "Hacks are generally standing on the street so that when the cars make the turn traffic is blocked and it is a wonder that someone has not been hurt before this."

According to the plan the city buys the land necessary for houses or stores to move back upon, moves the houses and builds the sidewalk in front of the building. Members of the commission stated that they believed street widening under these conditions should not be an especially heavy burden upon property owners who have buildings jutting out into the street.

It is the plan to begin work on the widening at once, getting exact property specifications and ascertaining the legal steps necessary to get the work accomplished.

Kalakaua avenue's new dressing of coral sand is also to be laid in the near future, the engineer announced today. He was urged to carry out the

work in preference to all others if possible.

Would Drive Horse Himself.

"Why I would even drive a horse myself," exclaimed Mrs. F. J. Lowrey, member of the commission and prominent Outdoor Circle worker, "if this work could be accomplished any sooner."

A. F. Wall, secretary, and a member of the Promotion Committee as well, urged also that the road be fixed in the best possible condition before many more steamer loads of tourists arrive here. He called the attention of the commission to the fact that the Great Northern will arrive early in December.

Mrs. F. J. Lowrey was appointed a committee of one at this morning's meeting to confer with the city engineer and with Supervisor Benjamin F. Hollinger tomorrow morning at Central Grammar school and decide what can be done toward putting the lawn in shape again. This is one of the bits of work that Mrs. Lowrey has been urging since the first meeting of the commission.

Next Friday afternoon the entire commission will pay a visit to the park along Nuuanu stream between Kuakini and School streets, there being a probability that the city will take charge of this piece of property.

Mrs. Lowrey reported for a committee consisting of herself and Mrs. J. M. Dowsett on a recent visit to Kalia-waena park, recommending a certain definite plan to follow in regard to the laying of sidewalks. She also recommended the painting of benches and the bandstand at Emma square in colors to conform with the buildings of St. Andrew's cathedral which are near by. The setting aside of a certain portion of Ala park next to Beretania street for a playground for small children was also suggested. The report was adopted.

LOCAL AND GENERAL

The chairman of committee and heads of booths of the Outdoor Circle's children's fete are requested to meet at the home of Mrs. F. J. Lowrey at 10 o'clock next Thursday morning.

Discussion of the plans to be presented by Governor Pinkham and Superintendent Charles B. Forbes to federal authorities at Washington, will be held by the Chamber of Commerce at its regular monthly meeting tomorrow afternoon at 2 o'clock.

A jury in Circuit Judge Ashford's court yesterday found Sanjoro Kakutani guilty of an assault with a dangerous weapon on Archie E. Lister, manager of the Pearl City Fruit Company. The defendant will be sentenced at 9 o'clock next Saturday morning.

In observance of the 79th birthday anniversary of King Kalakaua, the Hawaiian band serenaded Prince and Princess Kalaniana'ole for an hour this morning at their Waikiki residence, and at noon played in Bishop square. At 7:30 o'clock this evening the band will give a public concert in Thomas square.

George Ross, the Kohala, Hawaii, banker, has filed in federal court a declaration of intention to become an American citizen. Mr. Ross is a native of Inverness, Scotland, and emigrated to the United States from Vancouver, B. C., arriving in Honolulu on September 11, 1913.

David Richards was arrested by Marshal J. J. Smiddy last night on a charge of having aided in the alleged commission of a statutory offense by Manuel Richards, his brother. Virginia Pereira, the woman mentioned in the complaint, also was arrested. Manuel was taken into custody yesterday. David and his brother were released today on bond in the sum of \$750 each. The woman was released on a \$500 bond.

In preparation for the installation of water meter covers in front of business houses, representatives of the water department will call at these places in the next few days. Harry E. Murray, general manager, says that installation proper will begin about the end of this month, taking about a month for completion.

**NEW GREEK CABINET
MUCH LIKE THE OLD**

LONDON, Eng.—M. Skouloudis, the new Greek premier, has declared his intention of observing an attitude of very benevolent neutrality toward the entente powers.

ATHENS, Greece.—M. Skouloudis, commissioned by King Constantine to form a new cabinet, has accomplished the task. All of the members of the Zaimis ministry are retained except the premier himself. The new prime minister has taken the portfolio of foreign affairs. The formation of the new cabinet, it is generally assumed, will delay, if not eliminate, the crisis which would probably follow the dissolution of the chamber of deputies by the king.

The cabinet is composed of the following ministers, who took the oaths of office:

Premier and minister of foreign affairs, M. Skouloudis.
Minister of public instruction, M. Micheldakis.
Minister of justice and communications, D. G. Rhallis.
Minister of interior, M. Gounaris.
Minister of national economy, M. Theotokis.
Minister of war, Gen. Yanakitsas.
Minister of marine, Admiral Countouriotis.
Minister of finance, Stephen Dragoumis.
